This aluminum nosing is a clean and simple design solution. It improves the overall quality of the installation by protecting the cement nosing, which is the weakest part of the stair construction and the area most affected by traffic.

The profile works with any of our flooring in sheets or tiles. It is available in a thickness of 2.5 mm (0.098 in.) for our 2 mm rubber flooring like Granito and 3 mm (0.118 in.) for our 3 mm rubber flooring like Harmoni, Kayar, Lava, Massetto, Natura, Terranova and Uni. 4mm (0.157 in.) is for 3.5 mm Mondo Zeus.

INSTALLATION

The profile is to be attached to the cement support with screws (the profile itself comes with beveled holes).
