MONDOSTEP-P

Premium aluminum stair nosing

Mondostep-P is our aluminum stair nosing line, a premium design-orientated solution that will integrate our premium rubber products into stairs and landing area applications. This allows for seamless transitions from flooring to stairs.

Given the precision cut aluminum construction, the solution improves the overall quality and durability of every installation by protecting the concrete nosing, the weakest part of the stair construction and the area most affected by heavy traffic. Mondostep-P works seamlessly with any of our flooring in sheets or tiles.

Mondostep-P has 3 profiles in various heights and styles to accommodate the vast majority of Mondo's product lines and your facility's needs.

INSTALLATION

The profiles are to be attached to the stair through the use of adhesive and screws within beveled holes in aluminum stair nose.

MONDOSTEP S

Standard Rubber Stair Tread

Mondostep-S can be installed with matching landing tiles or with Mondo premium rubber flooring. It is available in a thickness of 7 mm (0.276 in.) at tread and 3.2 mm (0.126 in.) at transition and is available in lengths of either 4 ft or 6 ft.

Mondostep-S rubber stair tread and riser provides a clean and simple design solution. The stairtread comes in five neutral colors along with classic black and can be ordered with a range of contrasting color abrasive strips as required. Mondo's stair tread stocking program, available for select colors, will allow for last minute projects. A tried and true workhorse accessory that will not disappoint.

Mondostep S is Floorscore certified.

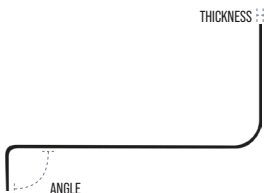

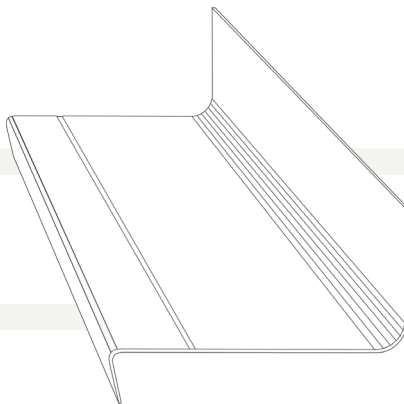

INSTALLATION

The stair tread is installed on the stair structure with approved Mondo adhesive or adhesive tape throughout.

Its one-piece construction is quick and easy to install and will adjust to variable riser heights.
