request (custom orders
available; minimum
quantity required)*

Mondo's aluminum stair nosing is a premium design-orientated solution that will integrate our premium rubber products into stair and landing area applications. This allows for seamless transitions from flooring to stairs.

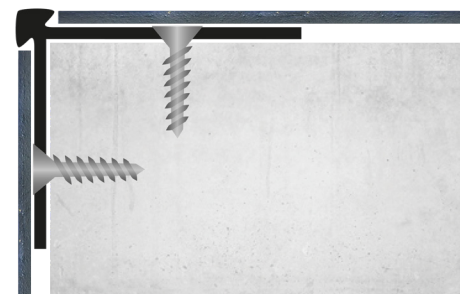

Given the precision cut aluminum construction, the solution improves the overall quality and durability of every installation by protecting the cement nosing, the weakest part of the stair construction and the area most affected by heavy traffic. Mondostep P works seamlessly with any of our flooring in sheets or tiles.

Mondostep S is available in various heights to accommodate the vast majority of Mondo's product line.

INSTALLATION

The profile is to be attached to the stair through the use of adhesive and screws within beveled holes in aluminum stair nose.

MONDOSTEP S

Standard Rubber Stair Tread

SIZES

4 ft x 13 in (1.22 m x 0.33 m)

6 ft x 13 in (1.83 m x 0.33 m)

THICKNESS

0.275 in (7 mm) at tread

0.126 in (3.2 mm) at transition

WEIGHT

4 ft: 9lb (4.08 kg)/piece

6 ft: 14lb (6.35 kg)/piece

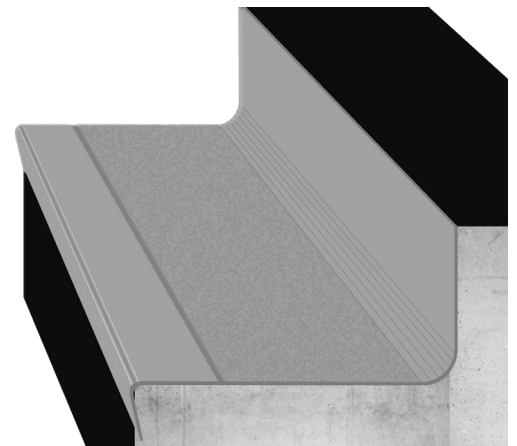

Mondostep S can be installed with matching landing tiles or with Mondo premium rubber. It is available in a thickness of 7 mm (0.276 in) at tread and 3.2 mm (0.126 in.) at transition and is available in lengths of either 4 ft or 6 ft.

Mondo's rubber stair treads provide a clean and simple design solution. The stairtread comes in five neutral colors along with classic black and can be ordered with a range of contrasting color abrasive strips as required. Mondo's stair tread stocking program, available for select colors, will allow for last minute projects.

Its one-piece construction is quick and easy to install and will adjust to variable riser heights. A tried and true workhorse accessory that will not disappoint.

INSTALLATION

The stair tread is installed on the stair structure with approved Mondo adhesive or adhesive tape throughout.
